[Supervision - Developing Your Reflective Practice | 1 day](#)

Explore what it means to be a reflective practitioner who provides quality practice supervision that helps workers manage demanding and complex client concerns. This interactive full-day workshop provides concrete skills and practical ideas to structure supervision sessions and ensure supervision remains respectful yet challenging. Learn to think through your ethical stance and dilemmas when negotiating an individual agreement.

[Responding to Suicide Risk | 1 day](#)

Build your knowledge on how to effectively and confidently reach out to intervene in a suicidal crisis. Learn current approaches to suicide prevention, warning signs, risk assessment and management of clients who present with suicidality. Responding to suicide risk training is suitable for workers in any profession.

[Safe Environments for Children and Young People | 1 day](#)

Learn how to recognise, report and respond to children or young people who may be at risk of harm, child abuse or neglect. This training focuses on child protection in the context of 'Through Their Eyes' and has the safety and wellbeing of children at its core. It is designed for professionals or volunteers who are mandatory reporters required to report suspicions of child abuse and neglect.

[Working Better with Nunga Kids | 1 day](#)

Working better with Nunga kids instils a deeper understanding of how to adapt your thinking and better support Aboriginal (Nunga) children. It will help build your confidence and understanding of how to support Aboriginal children and make a positive difference to families.

This course was developed by Aboriginal workers. Facilitators share their knowledge and skills to help you develop a culturally appropriate approach to working with Aboriginal children.

[Working Better with Nunga Kids, Community of Practice Facilitators Group | 2 days](#)

Learn how to facilitate the Working Better with Nunga Kids course for groups and organisations in your community. You will be provided with resources, tips and advice on how to successfully run this course. Training includes time to practice your delivery and familiarise yourself with the course content.

[Digital Literacy | 1/2 day](#)

This course equips participants with essential digital skills for learning and working in the community services sector. It covers the definition and significance of digital literacy, basic computer skills, internet basics, communication tools, and software etiquette, and includes a hands-on experience with common tools like emails and teams. Participants will also learn to access and use online resources relevant to community services and navigate an eLearning environment using AISR's free online training programs.

[Mental Health First Aid | 2 days](#)

A practical and hands-on training, like a first aid course, and is delivered by Accredited MHFA Instructors. You will learn about mental health issues and problems that people face in everyday life, identify signs and symptoms that suggest a person is developing a mental illness and learn how to provide initial support for a person experiencing a mental health crisis.

[Family Group Conferencing Coordinator Training | 3 hours online learning and 3 Face to Face Days](#)

Learn how to facilitate Family Group Conferencing for families where concerns have been raised for the wellbeing and safety

of a child or young person. This training teaches coordinators a strengths-based and inclusive approach, assisting families to develop an agreement on how to provide safe, permanent and stable care arrangements for their child or young person.

This course is a requirement to be considered for opportunities as a coordinator through the state-wide Ngartuitya Family Group Conferencing Service. This training is a combination of 3 hours self-paced online learning (requirement) and 3 days of face-to-face classroom learning.

At the conclusion of the face-to-face training, students can choose to be formally assessed and awarded with two units of competency upon successful completion.

A charge of \$300 will apply for registration and assessment.

[Baby Massage for Bonding | Four Online Topics and 1 Face to Face Day](#)

This short professional development course aims to develop your skills and knowledge so that you can support parents to notice and respond to their baby's cues to enhance their nurturing relationship by providing a structured program of infant massage instruction in a group or with individual baby and parent.

This training is suitable for professionals working therapeutically with infants in the first thousand days and their caregivers, including frontline and specialist workers in homelessness and family and domestic violence services, therapeutic children's workers, reunification, and intensive family support practitioners and those in community early childhood settings.

[Introduction to Working with People with Lived Experience | 1 Day](#)

This course provides an introduction to working with individuals with lived experience. It covers understanding lived experience, empathy, effective communication, and the importance of respect and dignity. It aims to provide participants with the necessary skills and understanding to effectively work with and support these individuals.

[Introduction to Working with Diverse Clients | 1 Day](#)

This is a full day interactive workshop.

Training Outcomes:

- To build on existing understanding and knowledge of culture and its impact on practice and clients' outcomes
- To enhance understanding of the skills required to creating and sustaining effective and productive work practices

The session is a thought provoking and provides participants with opportunities to:

- Share experiences and concepts learnt throughout personal and work journey.
- Learn how competency of working with diversity is not just about good intentions.
- Absorb some food for thoughts to guide future action.
- Inspire you to be the change agent no matter what your role is.

[Building Expertise Together: Workplace Trainer Community of Practice | Four \(4\) monthly 2 hour sessions](#)

Designed to cultivate a vibrant Community of Practice for Regional Workplace Trainers, this group will tackle common challenges collaboratively, engage in continuous professional development discussions, and participate in the creation of innovative training practices. Embrace a network of supportive peers, implement peer observation and feedback mechanisms, and reflect on experiences for ongoing improvement. This Community of Practice will provide a platform for trainers to share insights, overcome obstacles, and collectively celebrate successes, fostering a collaborative learning environment that enhances individual and collective training expertise.
